LAS VEGAS, Nov. 07, 2016 (GLOBE NEWSWIRE) -- Red Rock Resorts, Inc. ("Red Rock Resorts," "we" or the "Company") (NASDAQ:RRR) today announced its financial results for the third guarter ended September 30, 2016.

Key Highlights:

Highest third quarter Adjusted EBITDA since 2008.

Highest year-over-year net revenue growth in Las Vegas in over sixteen quarters.

Successfully completed the acquisition of Palms Casino Resort (the "Palms") on October 1, 2016, for a total purchase price of \$312.5 million.

Commenced construction of a \$115 million expansion and upgrade at Palace Station Hotel & Casino ("Palace Station"). Launched "My Rewards" enhancements to the award-winning Boarding Pass loyalty program, allowing guests to earn points for spend on non-casino amenities.

"Red Rock Resorts delivered an excellent quarter, as strong trends in both our casino and non-casino segments helped produce our highest year-over-year revenue growth in Las Vegas in over four years," said Marc J. Falcone, Executive Vice President, Chief Financial Officer and Treasurer. "We believe this recent growth demonstrates the strong underlying fundamentals of the Las Vegas market, which continues to experience broad-based growth."

Third Quarter Financial Highlights:

Net revenues increased 7.3% to \$347.1 million as compared to \$323.6 million in the prior year period, the fourteenth consecutive quarter of year-over-year net revenue growth.

Net income increased 59.2% to \$33.4 million as compared to \$21.0 million in the prior year period.

Adjusted EBITDA increased 13.7% to \$109.0 million as compared to \$95.9 million in the prior year period, the twenty-third consecutive quarter of year-over-year Adjusted EBITDA growth.

Adjusted EBITDA margin increased 180 basis points year-over-year to 31.4%, the sixteenth consecutive quarter of Adjusted EBITDA margin growth.

"We are very pleased with our third quarter performance as we achieved double-digit Adjusted EBITDA growth for the sixth time in the last seven quarters," said Mr. Falcone.

Las Vegas Operations

Net revenues increased \$18.7 million or 6.2% year-over-year to \$318.3 million from \$299.5 million in the prior year period. Adjusted EBITDA increased \$7.1 million or 8.2% year-over-year to \$94.3 million from \$87.2 million in the prior year period. Adjusted EBITDA margin improved 50 basis points to 29.6% in the third quarter of 2016 as compared to the prior year period. Casino revenues were up 5.8% in the quarter led by strong results across all of the major casino categories. Non-casino revenues were up 7.5%, driven by solid hotel and food and beverage performance, as the Company continues to benefit from its investments in non-casino areas. Margin improvements in both casino and hotel were offset by lower food and beverage margins related to the addition of several new restaurants, as well as additional product enhancements to our food and beverage offerings and service levels.

Native American Segment

Our Native American segment produced Adjusted EBITDA of \$21.6 million, which was up \$5.0 million or 30.5% year-over-year from \$16.6 million in the prior year period. The Company's Native American operations continued to produce excellent results and should continue to experience positive growth with the upcoming completion of their respective expansions. The Graton Resort & Casino expansion will open as planned on November 15, 2016 and will include 200-hotel rooms, a luxurious spa, outdoor pool area and over 20,000 square feet of event and convention space. Gun Lake Casino's casino expansion is expected to open in the summer of 2017.

Corporate and Other

Corporate and other decreased by \$1.0 million or 12.4% during the third quarter to \$6.9 million from \$7.9 million for the prior year period.

Adjusted EBITDA is not a generally accepted accounting principle ("GAAP") measurement and is presented solely as a supplemental disclosure because the Company believes that it is a widely used measure of operating performance in the gaming industry and is a principal basis for valuation of gaming companies. Adjusted EBITDA is further defined under the heading "Presentation of Financial Information" and a reconciliation of Adjusted EBITDA to net income is included in the financial information attached hereto.

Presentation of Financial Information

Adjusted EBITDA is a non-GAAP measure that is presented solely as a supplemental disclosure. We believe that Adjusted EBITDA is a widely used measure of operating performance in our industry and is a principal basis for valuation of gaming companies. We believe that in addition to operating income, Adjusted EBITDA is a useful financial performance measurement for assessing our operating performance because it provides information about the performance of our ongoing core operations excluding non-cash expenses, financing costs, and other non-operational items. Adjusted EBITDA includes net income plus preopening, depreciation and amortization, share-based compensation, a donation to UNLV, asset impairment, write-downs and other charges, net, interest expense, net, loss on extinguishment/modification of debt, change in fair value of derivative instruments and provision for income tax, and excludes the impact of a settlement agreement, Adjusted EBITDA attributable to the noncontrolling interests of MPM and discontinued operations. To evaluate Adjusted EBITDA and the trends it depicts, the components should be considered. Each of these components can significantly affect our results of operations and should be considered in evaluating our operating performance, and the impact of these components cannot be determined from Adjusted EBITDA. Further, Adjusted EBITDA does not represent net income or cash flows from operating, investing or financing activities as defined by GAAP and should not be considered as an alternative to net income as an indicator of our operating performance. Additionally, Adjusted EBITDA does not consider capital expenditures and other investing activities and should not be considered as a measure of our liquidity. In addition, it should be noted that not all gaming companies that report EBITDA or adjustments to this measure may calculate EBITDA or such adjustments in the same manner as we do, and therefore, our measure of Adjusted EBITDA may not be comparable to similarly titled measures used by other gaming companies.
